

Treatment Plan

What's included in our Treatment Plan?

- Initial fitting and fine tuning by our expert audiologists using the latest in hearing aid fitting protocols for a more precise fit and better hearing results—mandatory best practices
- Use of Real Ear Measurement - guaranteeing your hearing technology is always measuring up! (we are the only facilities in the area to use this!)
- All follow up appointments after fitting
- Any time adjustments - if your hearing technology needs a change, call us right away!
- Clean and checks at any time - our professionals keeping your technology fresh!
- Ear cleanings at any time - no need for q-tips!
- Free batteries and standard hearing aid supplies
- Annual visits - professional hearing technology cleaning, ear cleaning, annual hearing test, reprogramming, fine-tuning, real ear measurements, re-stocking of supplies for the length of your treatment plan
- Cognivue - Cognitive screening to monitor cognitive changes
